

**By Joanne Rose**

**Veterinarians are you looking to...**

Grow your practice?  
Gain new clients?  
Increase your profits  
And fill empty appointments?

The DVM Network is your risk free solution. Why? Because we're the only nationwide veterinary referral service, allowing you to manage your time better, while we take care of the rest.

**This is how we work.**

We refer pet caretakers to veterinarians everyday. Your practice will be included in our veterinary directory that we distribute to employers who offer our pet plan as an employee benefit. We will also list your practice on our consumer website and in all member communications. It's a total win-win situation.

**21 years in business and growing.**

Currently more than 1.4 million employees are eligible for this pet benefit.

**Memberships for General and Public Partners.**

DVM Network is powered by the Pet Assure Membership Club.

Did you know that just like employers offer medical, dental and life insurance plans for their employees, they are now also offering veterinary plan? Countless companies including Fortune 500 companies like Delta Airlines, Home Shopping Network, and Morgan Stanley offer our veterinary plan alongside their other employee benefits.

Many pet owners enrol in our veterinary plan through one of our partner organizations, like the AAA Auto Club and many animal shelters. Pet families can also purchase a plan from our consumer website.

In just 60 seconds, you can get your practice listed with DVM Network today.
